Scoring Instructions Using Golf Genius App

Golf Genius App

The Ladies' Club uses **Golf Genius** to record our scores on Game Days and tournaments. Please download the app to your phone using one of these links:

Golf Genius.

Signing into the Mobile App:

There are two ways for a player to sign in to the mobile app. You can enter the GGID assigned to your pairing on Game/Tournament Days or your email/password you registered when you downloaded the app.

We recommend ONLY using the Email and password to sign into the app. (The GGID is an ID assigned to a group of players playing a round together on Game and Tournament Days.)

• Email and Password: When you download the app, you set up your email and password. Players who are registered to play on Game and Tournament Days can log in with their email and password to see a list of events, leaderboard, etc. Only the Master Scorekeeper (see role below) will enter hole-by-hole scores on Game/Tournament Days.

When opening the app to sign in, here is the screen you will see.

Keeping Score in Golf Genius

1. Assign a single Master Scorekeeper for your pairing

On Game/tournament days, each pairing will assign a <u>single</u> Master Scorekeeper who will enter hole-by-hole scores for each player into the Golf Genius App. All other players in the pairing, <u>CANNOT</u> enter scores into Golf Genius during the same round. (Other players should track their score on a paper scorecard to review with the Master Scorekeeper after each hole and at the end of the round to ensure they are in sync.) All other players that are <u>not</u> the Master Scorekeeper can log into the Golf Genius app during the round to check the leaderboard, etc. but <u>not</u> enter scores.

2. Master Scorekeeper

The Master Scorekeeper will sign in using their email and password. Once the Master Scorekeeper is signed in, they click on their name to confirm who they are and to begin scoring the round for the pairing.

3. Score Entry

The Master Scorekeeper will then be directed to the score entry page for your pairing group. The app will default to the starting hole your pairing is assigned to for that Game Day. Typically, hole 1 but varies on Shotgun Start Game/Tournament Days.

The Master Scorekeeper will confirm hole scores with each player and then enter each player's score directly following completion of each hole. Once each player's score is entered, click "Save Scores" and you will be directed to the next hole for score entries.

You can also clear scores for a hole and undo any changes that you've made before the final scorecard submission.

If a player or team does not finish a hole, click "X" or click "X" + the most likely score if they did finish (e.g., X7 will count as 7 strokes for score posting purpose).

Note: When there is a team event (of 2 or 4 players), the screen will show only one entry for the team vs separate entries for each player.

4. Submitting the Final Scores

Once the pairing completes their round together, the Master Scorekeeper will review the final scores for each player for final confirmation of scores to be submitted for the Game or Tournament Day event.

The Master Scorekeeper will select 'Submit' and the scores will automatically be submitted into the Pro Shop for qualification for the Game or Tournament Day event. When using Golf Genius on Game Days, each player's scores will automatically be uploaded into GHIN. There is no extra step for the players to enter their GHIN score on these event days.

Please note that on non-league days, all members are responsible for entering their score into GHIN to maintain their handicap.

Note: Each pairing will assign a secondary scorekeeper to track the hole-by-hole scores and putts for each player on a <u>physical card</u>. The secondary scorekeeper will confirm the hole-by-hole scores and the putts at the same time. The master physical scorecard must be dropped in the scorecard box in the Pro Shop directly following the round in order to qualify for the day's putting contest.
